

# InKnow Alert Notify Module

IKA-RS232

Alert via LINE notify application

---

Innovation and easy operation

---

RS232 interface

---

Real-Time Data logger Max. 3 Month

---

Heavy Duty & Compact

---

The InKnow alert notify module for Fire Alarm Control Panel InKnow IKA-RS232 is ideal for monitoring fire alarm in factory. The IKA-RS232 also monitors building climate continuously and securely. The free inknow smart system allows fast configurable of the overall operation and easy.

The low-cost notify module IKA-RS232 guarantees secure alert results on the basis of state-of-the-art alert technology. via Line Notify app on smartphone

# Technical data

## Mechanical Specification

### Dimensions:

Height: 950 mm

Width: 105 mm

Depth: 250 mm

## Electrical Specification

External power supply voltage 24VDC

### Ethernet Interface :

Standard: 10Base-T, Full-duplex and half-duplex

Speed: 10/100Mbps

Transmission: 100m

Connector: RJ45

Configuration : WebBrowser "InKnow Smart system"  
computer is not need setup extra software

LED Status : RED's "ON"

### Serial interface :

Serial interface number: 1 port RS-232

RS-232 signal: TXD, RXD, GND

Parity bit: None, Even, Odd, Mark

Data bit: 7bit, 8bit

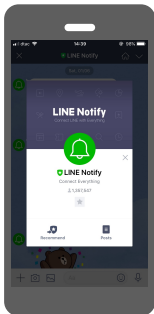

Baud rate: 600bps~115200bps

Stop bit: 1, 2

Transmission: 15M

Interface type: RS-232 side 3 bit terminal block

**Note :** Not Support Flow control : RTS/CTS Xon, Xoff

Countries and regions where LINE Notify is currently supported: Japan, U.S.A., Canada, EU, Norway, Switzerland, Turkey, Russia, Singapore, Thailand, Vietnam, and India

Connect

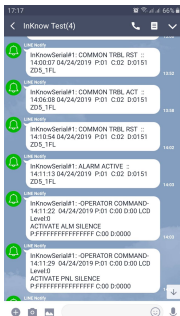

## LINE Notify

Alert and send message to 500 members per Group LINE

Connect to Smartphone for easy,  
Alert via LINE Notify
