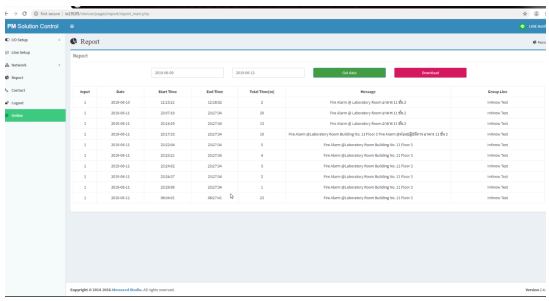
InKnow Alert enable Web Service Data Transmission

Quick
Configuration

Real-Time saved
on Web Service

Data is sent to web service for recorder max 3 month facilitating report at even and location from everywhere on PC and can download data to excel file.



Notify Module IKA-001

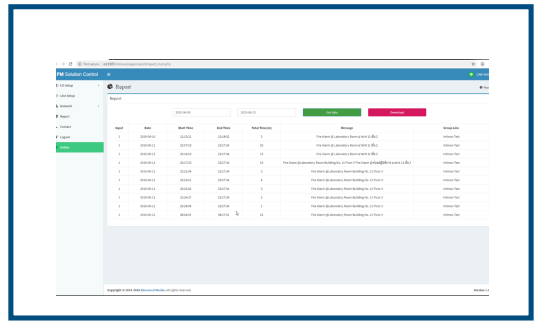
Small and light enough for the palm of your hand

Key Feature

- Eight Digital Input Channels
- Ultra-compact for convenient installation
- Alert via Group LINE to 500 members
- Fast Alert within 1 minute and Recording Across All Channels

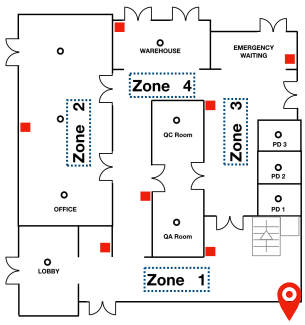
LAN connection

8-Channel

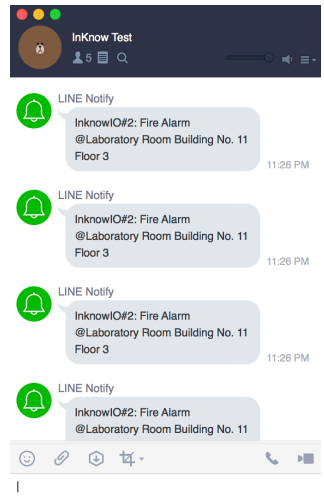


Logger data on InKnow Smart system
Max 3 Month

Key Feature Upload Layout



Fire Alarm Here !!!



For Application such as ; Fire Alarm , Gas Detector , Motor , Temperature&Humidity Machine , Water&Chemical Tank , Pump

Notify Module IKA-RS232

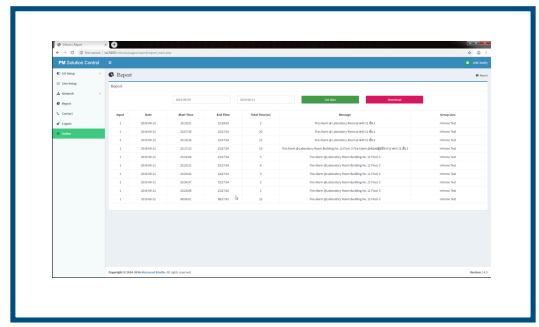
Innovation & Easy operation , Available with Fire Alarm Control Panel

Key Feature

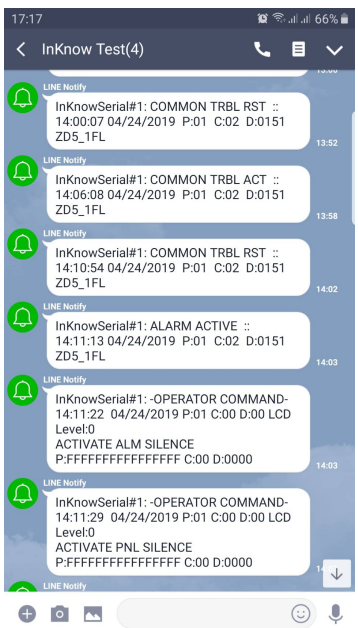
- RS232 Signal , RX-TX-GND
- Ultra-compact for convenient installation
- Available with Fire Alarm Control Panel
- Alert & Detect Trouble Shooting via Group LINE to 500 members

LAN connection

RS232- 3 bit terminal block



Logger data on InKnow Smart system
Max 3 Month



Key Feature

Detect Trouble Shooting's FCPA convenient for Maintenance system

Available with Fire Alarm Control Panel

Specification

Model	**IKA-001**	**IKA-RS232**
Alert Message	LINE Notify - TH/EN	LINE Notify - EN Only
Mechanical Specification		
Dimension	Height: 950 mm Width: 105 mm Depth: 250 mm	Height: 950 mm Width: 105 mm Depth: 250 mm
Electrical Specification
